Designer with a technical background, passionate about helping organizations transform complex technologies into seamless experiences. Currently working as a designer and software developer learning and working with Artifical Intelligence.

EXPERIENCE

Licking Heights Local Schools | UX/UI Designer & Software Developer | Sep 2026
- Designing and developing custom software using AI-assisted coding tools to meet district needs and replace costly enterprise software subscriptions.

Kroger Tech & Digital | Experience Design Co-op | Jun 2025 – Dec 2025
- Led discovery efforts for one of Kroger's first GenAI-enabled internal product initiatives, identifying user needs and opportunities that informed the product roadmap.
- Planned and executed user testing with 15+ participants, synthesizing findings into recommendations that informed feature decisions for Kroger's national promotion management platform.

84.51° | Experience Design Co-op | Aug 2024 – Dec 2024
- Developed product roadmap and led experience design for an API Wizard adopted by 50+ internal users, simplifying onboarding and reducing barriers to API adoption.
- Gathered customer insights through interviews, workshops, and usability testing with 100+ participants to make feature decisions for product MVP.

NEXT Innovation Scholars | Design Lead and Consultant | Aug 2022 – May 2026
- Designed and executed a five-year strategic plan to expand program capabilities, driving engagements with companies including P&G and US Bank
- Built then led an annual leadership development curriculum, preparing students to step into project and strategic leadership roles across the organization
- Worked as Design Lead on first-of-their-kind innovation initiatives spanning students, faculty, and executive industry partners — producing strategic reports, conferences, and programs featured at SXSW 2026 and the 1819 Futures Forum

GE Appliances | Embedded Software Co-op | Jan 2024 – May 2024
- Developed software for GE's line of induction range stovetops
- Implemented module architecture for and won the GE Co-op Sumobot competition

Hasbro | Packaging Design Co-op | Cincinnati, OH | Jan 2022 – May 2022
- Collaborated with a team to design packaging for Nerf Blaster products that are now in stores world-wide
- Created branding assets and participated in ideation for an upcoming rebrand

PROJECTS & ACTIVITIES

Proctor & Gamble Package Redesign | Jan 2025 – May 2025
- Led customer research and concept validation efforts for consumer-packaged goods brands—Bounce, Pantene, and DAWN Dish Soap—across three rapid product-development sprints.

EJ Gallo Design Research Consulting | Jul 2023 – Aug 2023
- Conducted stakeholder and customer discovery research to identify unmet needs among emerging wine consumers
- Facilitated workshops that informed future product opportunities at EJ Gallo headquarters in Modesto, California

Stanford University Innovation Fellows | Aug 2022 – May 2026
- Accepted as a University Innovation Fellow, an international program of Stanford's d.school focused on creating new opportunities for students to engage with innovation, entrepreneurship, design-thinking, and creativity
